Maybe we could discuss Lockwood tomorrow? Could I give you a call? I have to dart out in about 10 minutes and then come back later. Tom

Hi, Tom:

Welcome back! We won't move CFAC to special accounts until we get a special account for the site (we do not yet have one). How would you like to handle Lockwood? Are you looking for additional bulk funds early in federal fiscal year 2017 (e.g., sometime between October and December)? I agree that BN Somers is experiencing greater activity than expected. We have a special account there if you need additional funding. Please work with Roger on what you need.

Happy Monday!

Joe

Seems like that came to an end quickly. Oh well.

I see that CFAC is now listed, does that mean we should plan on moving it into the Special category?

Also, I wanted to check with you on Lockwood. We've about exhausted the funds we had set aside in the Bulk account and I'd rather not go negative if that can be avoided, just to keep the bookkeeping simple. If you could let me know.

And lastly, we the ramp up of activities on BN Somer, I will talk with Roger about adjustments and whether those might be needed. Seems BNSF is producing more than a few documents for review and subsequent field work. So more just a heads up.

Re-entry has been quick! Talk to you soon.

Tom
